1 x 8	11/16"	7-1/4"	6-13/16"	.08"
1 x 10	11/16"	9-1/4"	8-13/16"	.08"
1 x 12	11/16"	11-1/4"	10-13/16"	.08"

All Dimensions are +/- .03125

Installers and building owners praise these advantages of DURATION[®] T&G Joint Siding:

- Tight thickness tolerance (specifically gauged for 11/16" thickness)
- Better adherence to wall since adjacent pieces "lock" together
- Available in virtually any dimension and up to 1/4" gap on Nickel Gap (Channel) profile
- Available quickly (Smooth is stocked, short lead time on woodgrain)
- Smoother (flatter) finish surface
- Slightly more coverage per board
- Only 2 fasteners required across face on 1x8 and 1x10 material (3 on 1x12)
- Class A Fire Rating
- Complimentary Mouldings available
